**RESIDENT TALKS
OVER LEGISLATION
WITH J. P. MORGAN****Visit of Financier to White
House Surprise to
Washington.****OTHER CHATS ARE SCHEDULED**

Big Business is at Last to Get a Hearing, It is Said; Henry Ford is Due to Lunch With Mr. Wilson Next Week; Such Meetings are Unusual.

By Associated Press.
WASHINGTON, July 2.—J. P. Morgan had an engagement at the White House today to discuss general business conditions with President Wilson. It was the first of several informal conferences the President plans to have with industrial and financial leaders within a short time.

It was said at the White House that Mr. Morgan had asked for the engagement and it was explained that the two men are personal friends.

Another version of the meeting was that Mr. Morgan had been invited through friends to give his views to the President.

Next week the President will have an informal conference with Henry Ford, the Detroit manufacturer, who will be entertained at luncheon at the White House. It was said the President had invited Mr. Ford.

Officials close to the President said Mr. Wilson would take such an opportunity to outline his views to the heads of "big business" in person.

Mr. Morgan's engagement was more or less of a surprise to those who have observed the course the President has taken since he entered the White House in having conferences with captains of industry. It had been pointed out that Mr. Wilson was "ceiving the big business men of the country less frequently than his predecessors. In fact, had not been calling them to his side at all on legislation affecting business as many other Presidents have done.

When the currency bill was in passage through Congress, the President even declined to receive some members of the currency committee.

White House officials said today that one of the features which had entered into public discussion of the administration's trust legislation policy and what the President had characterized as "psychological depression" caused by a campaign to halt the trust bills in Congress was an inference that Mr. Wilson did not care to meet the big business men of the country face to face and discuss with them personally the issues in which they are so vitally interested.

By a series of informal conferences with leaders of industry and finance, of which those with Mr. Morgan and Mr. Ford will be the first, it is the idea to show that the President is approaching the subject with an open mind willing to hear the views of big business first hand and outline his own views in return.

THREATEN BOYCOTT

Westinghouse Strikers to Ban Plumes if State Corps Remains.

By Associated Press.
PITTSBURGH, July 2.—Westinghouse strikers today threatened to boycott the state militia if the state corps remains.

The daily mass meeting of strikers instructed the committee to call on Governor Tener to withdraw the troops and a telegram was also sent to Mr. Tener as president of the National Association of Professional Baseball Clubs that if the troops were withdrawn, the strikers would withdraw their patronage from the Pittsburgh National League club.

ROYAL BODIES LANDED

Great Demonstration When Assassins' Victims Reach Trieste.

By Associated Press.
TRIESTE, Austria, July 2.—An impressive demonstration today accompanied the landing from the Austrian battleship Veritas of the bodies of the assassinated Archduke Francis Ferdinand and his consort, the Duchess of Hohenberg.

The entire community thronged the shore or took up positions on board ships in the harbor at an early hour.

POTSDAM, Germany, July 2.—Emperor William suddenly abandoned today his intended trip to Vienna to attend the funeral of the late Archduke Francis Ferdinand. It was announced that he was suffering from a severe cold, attended with symptoms of influenza.

Montreal, July 2.—The Canadian Pacific railway steamer Asinibola with 300 passengers aboard went ashore today at Red Bank, New Brunswick. The vessel's operator is communicating the ship's plight and it was thought she could back off.

**SERVES 30 YEARS
FOR THE LIFE OF
NEGRO'S 30 CENTS.**

By Associated Press.
MOBILE, Ala., July 2.—Fifty years for stealing 30 cents. That is the sentence that a Vale county, Alabama, jury imposed on Frank Williams, a negro, who in 1894, robbed another negro of a half-dollar.

After serving more than 20 years of the 50 Williams has been paroled by Governor O'Neill, the governor extending clemency last night.

**LIFE HAD BEEN THREATENED,
DR. CARMAN TELLS POLICE**

Shot That Killed Mrs. Bailey May Have Been Meant for Him, Is Believed.

By Associated Press.
PORTLAND, Me., July 2.—Two weeks before Mrs. Louisa Bailey was murdered in the office of Dr. Edwin Carman, some one called Doctor Carman on the phone and threatened his life. With apparent reluctance, and more than 26 hours after the tragedy, the physician today gave this information.

The county prosecutor failed to make him amplify this revelation. Doctor Carman refused to say whether the threatening message came from a man or a woman and remained silent under further questioning.

Joseph Golden, one of the two men who sat in Doctor Carman's waiting room when Mrs. Bailey was killed, surprised the authorities today by declaring that he saw Mrs. Carman enter the room a minute or two after the shot was fired. She helped her husband lift the woman's body to a couch, he said, and folded the hands over the breast.

This contradicted Mrs. Carman's statement that she did not see Mrs. Bailey, either before or after the shooting. Further questioning brought from Golden an admission that he might have made a mistake and that the woman he saw in the doctor's office might have been Mrs. Carman's sister, who closely resembled her.

Dr. Carman's engagement was more or less of a surprise to those who have observed the course the President has taken since he entered the White House in having conferences with captains of industry. It had been pointed out that Mr. Wilson was "ceiving the big business men of the country less frequently than his predecessors. In fact, had not been calling them to his side at all on legislation affecting business as many other Presidents have done.

When the currency bill was in passage through Congress, the President even declined to receive some members of the currency committee.

White House officials said today that one of the features which had entered into public discussion of the administration's trust legislation policy and what the President had characterized as "psychological depression" caused by a campaign to halt the trust bills in Congress was an inference that Mr. Wilson did not care to meet the big business men of the country face to face and discuss with them personally the issues in which they are so vitally interested.

Montreal, July 2.—The Canadian Pacific railway steamer Asinibola with 300 passengers aboard went ashore today at Red Bank, New Brunswick. The vessel's operator is communicating the ship's plight and it was thought she could back off.

By Associated Press.
BALTIMORE, July 2.—Fifty men employed in constructing a tunnel along Jones' Falls from Preston street to Mount Royal avenue, narrowly escaped being drowned early today when the cofferdam at the mouth of the tunnel at Mount Royal avenue gave way under the pressure of high water.

The men fled just ahead of the wall of water and escaped up the shaft by climbing ropes and timbers.

After the water had subsided the body of an Italian laborer was found in the debris.

SALEM, Mass., July 2.—A nation-wide appeal for financial assistance for the 10,000 refugees who have been living under tents since the fire of June 26th, was decided upon today at a meeting of the general relief committee.

The appeal will be made through telegrams sent to Governor Walsh by the governors of other states and the mayors of the principal cities.

Killed in Week.
MONONGAHELA, Pa., July 2.—An unidentified laborer was instantly killed and 10 other men were badly injured when a work train on the Monongahela division of the Pennsylvania railroad crashed into a freight train near here today.

**TWO SENATORS SAY
THEY HAD NO PART
IN STOCK SCANDAL****Overman and Chilton Deny
Authorizing Use of Of-
ficial Stationery.****PROMOTER EMPLOYS RELATIVE**

Stenographer Corroborates Overman's Statement that Senate Paper Was Used Without His Consent; Treasury Official Will Be Asked to Explain.

By Associated Press.
WASHINGTON, July 2.—Senators Overman and Chilton were principal witnesses here today before a committee investigating misuse of official stationery for promotion of a North Carolina gold mining project.

Mr. Overman testified that he bought \$2,000 of stock in the mine when a Treasury expert told him the property was worth \$60,000,000. Mr. Chilton testified he owned \$2,500 worth. Senator Overman testified that his stenographer had written for a promoter to use highly commendatory of the project without his knowledge, upon letterheads of the United States Senate.

The stenographer corroborated that; and a messenger told of giving some letter heads to the promoter by whom, the senator testified, his son-in-law was employed as an attorney.

Senator Chilton said he knew nothing of the use of the census committee letterheads until later, when he found the promoter had been using it. Both senators testified it was customary for constituents to use stationery in their offices.

C. H. Marsh, a clerk to the rules committee, testified he bought \$2,000 worth of stock before the letter appeared. John Halsey, clerk to the census committee, said that he had ordered about 50 copies of the letter on committee paper at the request of the promoter. He testified he had bought 1,000 shares through a local broker before the letter was written, and lost it. He saw nothing unusual in the request for 50 copies.

W. C. Newman, the promoter's attorney, testified tomorrow. John Skelton Williams, controller of the currency, and George Roberts, director of the mint, will be asked to testify on the sending of a government expert to examine the mine.

By Associated Press.
MANCHESTER, N. H., July 2.—Three lives were lost early today in a fire which slightly damaged the lodging house of Mrs. David Mayo on Elm street. David Reed was killed when he disappeared a gold-miner's warning and jumped from a third story window. Frederick Caron and Albert Luchance were suffocated in their rooms on the top floor of the four-story frame building.

Several lodgers were hurt in jumping from windows. Some were taken down ladders and others escaped over the roof to an adjoining building. The fire was confined to the lower part of the structure but the upper floors were filled with dense smoke.

RECEIVER IS ASKED
Salt Filled Over Bonds of Cincinnati, Hamilton & Dayton Railroad.

By Associated Press.
CINCINNATI, July 2.—Application for a receiver was made today in the United States district court for the Cincinnati, Hamilton & Dayton railroad. The suit was filed on behalf of the Bankers Trust Company of New York. The action also requests the foreclosure of a mortgage held by the trust company.

The mortgage involves some \$36,000,000 and includes \$3,102,000 of bonds for the Cincinnati, Hamilton & Dayton railroad and \$4,722,000 worth of bonds for the Cincinnati, Indiana & Western road. The petition declares that the entire bonded indebtedness for the latter road is \$75,000,000.

MINERS ACCEPT TERMS.
Win Checkoff from Operators of the Kanawha Coal Field.

By Associated Press.
CHARLESTON, W. Va., July 2.—Officers of the United Mine Workers announced today that the miners had voted to accept the strike settlement recommended by the Federal conciliation board and the men would be ordered back to work next Monday.

The settlement gives the checkoff of union dues and assessments not to exceed \$1.10 per man per month and the appointment of a committee of three to arbitrate the differences in wages with a view to equalizing the rate paid in different parts of the Kanawha coal field.

Killed in Week.
OTTAWA, Ill., July 2.—Miss Tina Smith, aged 17, died today from a bullet wound in the chest, which was inflicted by a brother, Webster Smith, turned over. Other occupants of the machine were badly injured.

By Associated Press.
Drawing First Vacation.
Arch Heilbrunn, the first of the paid firemen to draw his vacation, will begin his ten days' leave of absence on Monday. A substitute will be employed during the vacation season.

**DISPUTE OVER PAYING
Property Owners Not Yet Sure How
Much They Must Pay.**

Some uncertainty exists regarding the method adopted by the city in regard to the assessment of paving costs on abutting property owners. Some property owners thought that West Brownsville, when the improvement is presented the two-thirds rule would be adopted, the city paying one-third of the cost; but Councilman Gans has instructed Solicitor Higbee that the paving ordinances are to be drawn up in accordance with an adopted resolution assessing all of the cost on the property owners, except street crossings, sewer inlets and the like.

The question of grades for the laying of sidewalks on ungraded streets is also causing some discussion. Whether the city shall pay for such grading when the property owners want to pave has not been decided. Some of the councilmen believe that the city should pay for all "desirable" grading others have not expressed themselves on the subject.

SALARIES ADJUSTED

Some Postmasters Got Increases, but Not in Connellsville.

According to the annual readjustment of postmasters' salaries, based on the amount of business done last year, Postmaster W. D. McGinnis will receive \$2,800, the same amount as last year.

Dunbar is increased from \$1,600 to \$1,700; Everson from \$1,000 to \$1,100; Fayette City from \$1,800 to \$1,900; West Newton from \$2,400 to \$2,500; West Brownsville from \$1,200 to \$1,300; Smithfield from \$1,400 to \$1,500; Scottsdale from \$2,600 to \$2,700; Berwyn from \$1,500 to \$1,600; Smithfield from \$1,400 to \$1,500.

There were no changes in the following: Conneaut, \$2,600; Dawson, \$1,400; Mansfield, \$1,800; Mount Pleasant, \$2,300; Perryopolis, \$1,100; Rockwood, \$1,700; South Brownsville, \$1,900; Uniontown, \$2,300.

None of the nearby postmasters suffered reductions which would have been made had there been any falling off in business.

BOOTBLACKS ENTER SUIT.

They Claim Back Wages from a Connellsville Concern.

Special to The Courier.
UNIONTOWN, July 2.—Two suits against the proprietor of a Connellsville shoe shining establishment were entered today. George Pappas asks \$50 and Tom Baddas asks \$12.50 from J. Holmes, former proprietor of the shoe shine establishment, who was employed at the rate of \$25 a month, with board and lodging included. Pappas worked two months and Baddas half a month.

Ferdinand Westheimer of Cincinnati today entered suit against Paul Ganser, former proprietor of the Young House in Connellsville, to recover \$152 alleged to be due on a book account for whiskey.

MUZZLES POPULAR.

Demand for Them is Made on the Hardware Stores.

There has been quite a demand for dog muzzles at the hardware stores recently. "This is due to the quarantine established in South Connellsville and to the fact that many persons who enter their dogs are voluntarily muzzling them during the hot weather, knowing that any dog is liable to develop rabies."

The suggestion of \$5 as a maximum dog tax has caused a protest from dog owners in a single hour today that was never before revived within the same period of time. County Treasurer W. S. Clark received \$14,751.13 from four tax collectors, who settled their 1914 county duplicates.

The payments were as follows: Charles T. Croner, \$42,000; 208 35; Frank T. Springer, North Union, \$20,256.88; Jesse B. Wyatt, Redstone, \$25,000; and John C. Brownfield, South Union, \$18,701.35.

WANT SIRENS STOPPED.

Markleton Asks Baltimore & Ohio to Put Soft Pedal on Whistles.

Claiming that the whistling of passing locomotives annoys nervous patients, the authorities at the Markleton Sanatorium have petitioned Superintendent O. L. Eaton of the Connellsville division to issue an order directing engineers to put the soft pedal on their sirens while in the vicinity of the place.

It is said that such orders were issued some time ago, but it is being ignored by the engineers.

Following the usual custom the Carnegie Free Library will be closed on the Fourth of July.

THE WEATHER FORECAST.

Fair tonight and Friday in the noon weather forecast for Western Pennsylvania.

Temperature Record.
Maximum.....74 1913
Minimum.....74 95
Mean.....78 72
The Young river dropped from 2.55 to 2.40 feet during the night.

**CITY GETS A BIG
PRICE FOR BONDS;
MELLONS TOP BID****Pittsburg Bank Takes the
Entire \$100,000
Issue.****AUDITORS FOR WATER COMPANY**

Council Authorizes Employment of One or More to Examine Books; Sealer of Weights Cannot Test the Meters, So City Solicitor Finds.

Connellsville's sound financial rating was attested in a very flattering manner last night when the bids for the \$100,000 improvement and refunding bond issue were opened. Ten bids submitted for the full issue and two local banks offered good premiums for \$20,000 of the bonds. The Mellon National Bank of Pittsburgh was awarded the issue at the exceptionally high bid of \$102,332.50, a premium of \$2,332.50. Close behind the successful bidder came the C. E. Dennison Company of Chicago, which offered \$102,075; and the Commonwealth Trust Company of Pittsburgh, which bid \$102,044.00.

The Young Trust Company offered to take 20 of the bonds, maturing between 1915 and 1929, at \$20,245.40 and the First National Bank made a similar bid for 20 bonds maturing between 1921 and 1928 at \$20,243.40. Other bids were: A. B. Leach Company, New York, \$101,777.17; Riley, Brock & Co., Philadelphia, \$100,578.10; Devitt Trimble Company, Chicago, \$101,350; Lyon, Singer & Co., Pittsburgh, premium of \$2,117; Gordon & Co., Pittsburgh, \$1,000; Holmes, Westport & Co., Pittsburgh, \$101,911; Warner & Fitzharris, Pittsburgh, premium of \$1,987. All bids on specified premiums offered to take the bonds at par and secured interest.

Connellsville's water company is now consulting the law for the most advantageous way to acquire the water meters, which are now owned by the city of the purchase thereof, and that the superintendent of the city and public property, Mr. Dugan, as directed to gather information concerning suitable persons for the purpose, the compensation demanded, and report to the city as soon as possible. The resolution was adopted.

Mr. Dugan's prods at the water company evolved an important and very disappointing fact. In reference to proposed tests of the newly installed water meters to determine whether they are accurate, Mr. Dugan confidently stated that he supposed the water company would be able to attend to that.

Mr. Higbee found, however, after consulting the law, that the special act under which the local sewer department was made, makes it unlawful for the sewer to do any other work than that prescribed for him, and testing gas electric and water meters is not included in the duties specified in the act. Mr. Dugan's prods at the water company evolved an important and very disappointing fact. **ARM CAUGHT IN A
GIRDER, AUTOIST
BLED TO DEATH.**

By Associated Press.
BURLINGTON, Ia., July 2.—Clifford Johnson, aged 34, met death in an unusual auto accident early today. He was riding with two girls. As the car passed over a bridge, he stood up, raised his arm in the air and it caught the girders, whisking him from the car. His arm was pulled out at the socket and he bled to death.

**CONNELLSVILLE TO BE
ON LINCOLN HIGHWAY**

Inspectors and Engineers Arrive Here to Lay Out the Route From Washington.

Driving a big yellow government auto, Chief Inspector J. H. Miller and E. M. Martin and J. L. Shindler, government engineers engaged in path-finding work for the Lincoln Highway, arrived in Connellsville at 3:30 o'clock this morning. They will remain here until Monday inspecting the roads between Uniontown and Connellsville and from there to Greensburg, via a view of determining the best route through Fayette county and thence to Pittsburgh.

Chief Miller went to Uniontown this morning leaving Martin and Shindler here. All three are fitted out with olive khaki uniforms. They are wearing civilian attire, however, with the exception of their caps, owing to the hot weather. The caps bear the initials "U. S. A." and a wreath enclosing the letter "I," indicating Inspector.

Eighteen hundred miles of the Lincoln Highway have been adopted, between Cleveland, Ohio, and Ogden, Utah. The inspectors who arrived here today have charge of the route selection between Washington and Cleveland. That between New York and Washington has not been selected.

When completely laid out, the Lincoln Highway will provide the shortest and best road between New York and San Francisco. It will be marked with red, white and blue stripes painted on every eighth milepost. It will pass through the main streets of Uniontown, Connellsville and Greensburg. For the most part it will be a 35-foot macadamized road.

SOCIETY.

Busy Bee Circle Meets.
The Busy Bee Circle of the Ladies' Aid Society of the First Methodist Episcopal Church was entertained yesterday afternoon by Mrs. George Powell at the home of her daughter, Mrs. Harry Darts in North Pittsburg street. The ladies brought their fancy work and spent a most enjoyable afternoon. Refreshments were served.

Aid Society to Meet.
The regular meeting of the Ladies' Aid Society of the First Baptist Church will be held tomorrow evening at the home of Mrs. Milton Bryner on Latta street.

Arranging for Convention.
The committee arranging for the annual state convention of the Christian Endeavor Union to be held Tuesday, Wednesday and Thursday of next week in Uniontown, are busy with their work to a close and the celebration committee is preparing to begin its work next Sunday afternoon. An effort will be made to have the Fayette county persons enroll as delegates previous to next Tuesday when the large delegation from Westmoreland and Philadelphia counties will arrive. Each enrolled delegate will receive a handsome badge, a souvenir program and souvenir year book.

Entertained for Luncheon.
Mr. and Mrs. D. Delavan entertained at their home in Robinson street, Pittsburg, Tuesday evening in honor of their guests, Miss Irene and Miss Webb of Scottsdale. Thirty guests attended and spent a most enjoyable evening. Music and dancing were the amusement. At 11:30 o'clock a delicious luncheon was served. Greenwood Fancy Work Club.

Greenwood Fancy Work Club.
Mrs. Lillian Keyser will entertain the Greenwood Ladies' Fancy Work Club next Monday evening at her home on Ninth street, Greenwood. Instead of Tuesday afternoon.

Picnic at Workman's Grove.
The young people of the First Baptist Church have arranged for a picnic to be held Saturday at Workman's Grove at Bellview. All members of the church are invited.

Missionary Society to Meet.
The regular meeting of the Women's Missionary Society of the Trinity Reformed Church will be held this evening at the home of Mrs. George Fenner on Morrell avenue, Greenwood.

Soloist at Recital.
Miss Marian Munson has returned from Bellevue where she was soprano soloist at a recital given by Miss Winona Hill in the Custer treasury-aria church on Tuesday night.

Missionary Society to Meet.
The regular meeting of the Women's Missionary Society of the First Methodist Episcopal Church will be held Tuesday afternoon at 3:30 o'clock at the home of Mrs. W. P. Clark on Crawford avenue. The annual election of officers will take place and a large attendance is desired.

Dinner Dance.
Colonial Inn, South Pittsburg street, was the scene of a charming dinner dance given last evening by J. Donald Reid in honor of Forrest H. Amesworth of Brookline, Mass. William

Ernst of Covington, Ky., and William Gauding of Worcester, Mass., the guests of Torrence Overholt of Scottsdale, and graduates of Yale. Music was furnished by Kiefer's orchestra. Guests from Scottsdale, Greensburg and Uniontown attended.

OFF TO WEST POINT

George Davis to Enter on High School Certificate.

George Davis received word last night that he is to report at the West Point Military Academy at once. He will leave tonight and will be regularly enrolled as a cadet within the next few days.

Davis was named first alternate by Congressmen Wood, N. Carr several weeks ago. Percy Shook being given the appointment. These two, together with Harry Louder, second alternate, went to Columbus and took the physical examination. They all filed high school certificates instead of taking the mental examination and after the high school authorities got busy to have Connellsville listed among the accredited high schools from which students are to be accepted without examination under an act passed in January of this year. Davis passed the physical examination and after much red tape his certificate was accepted at the academy. He is the son of H. C. Davis of the Pinnacle. He was graduated from the Connellsville high school in the class of 1913.

Aid Society is Entertained.
The Ladies' Aid Society of the Methodist Protestant Church were delightfully entertained yesterday afternoon by Mrs. Rockwell Marlette at the Marlette summer home near Murby's Bluff. About 45 ladies attended. Mrs. J. R. Sperry's singing they were conveyed to the country in automobiles. A delicious luncheon was served.

Parade Starts Convention.
A street parade, in which a large number participated, was a feature of the tenth annual convention of the Young Men's Christian Association and the Young People's Union in session in the Mount Union Baptist Church on the West Side. Many delegates are in attendance.

Aid Society Meets.
The regular meeting of the Ladies' Aid Society of the First Presbyterian Church was held yesterday afternoon at the home of Mrs. J. M. Herplek on East Main street. A business meeting was held and refreshments were served.

Gift at McIntyre Home.
A baby girl was born this morning to Mr. and Mrs. John McIntyre of Scottsdale. Mrs. McIntyre was formerly Miss Nora McNeal of Scottsdale. Mr. McIntyre formerly resided at Leisenring.

Brooks Pledge Jail.
Kenneth Miller, who signed a solemn pledge before City Clerk Dixler to drink no more for a year, was arrested as a drunk last night and committed to jail for 15 days by the mayor this morning.

PERSONAL.

Mrs. Edward Sweeney and son Frank of Greenwood will leave next Tuesday for an automobile trip to Philadelphia and Atlantic City. Ira Moon went to Bear Run this morning.

Dr. and Mrs. S. S. Stahl and daughter, Miss Emma, went to Confluence this morning for a several days stay. Miss Daisy Trump and Miss Lillian Edmonds will leave Sunday for New York to take a six weeks' course at the Columbia University.

Solomon Theatre today, "The Baited Trap," 2 acts. "The Sandhill Lovers," 3 acts. (Sunday) 5 acts.—Adv.

Miss Azra O'Donovan of the West Side is taking a summer course at Grove City College, Grove City.

Mrs. A. W. Vanatta of Pittsburg was the guest of her mother, Mrs. E. Y. White yesterday.

Mrs. G. A. Markle of the West Side went to Pittsburg this morning to visit her daughter, Mrs. Frank Husband.

Mrs. J. P. Snyder went to Altoona this morning and this evening will be accompanied home by her son, H. P. Jr., who has been visiting his grandmother, Mrs. Alice Kuhn McIntyre.

If looking for Creamery Butter, or Butterine, Eggs, Cheese, Coffee, Tea, Apples, Peaches, etc., we have them. Chicago Dairy Co.—Adv.

Mr. and Mrs. James (Happert) left today for a visit in Toole.

G. C. McGill of Dawson is home from a trip to Mount Clemens, Mich.

Mrs. James Colburn and small son Hughes left this morning for Indianapolis, Ind., to make their future home. Mr. Colburn has been located there for the past several weeks.

Mrs. F. W. Wright and son Frank of Wills' Road are visiting relatives in Buckhannon, W. Va.

Mrs. Mary Brahear of Normalville is visiting her son and daughter-in-law, Mr. and Mrs. R. B. Brahear of South Pittsburg street.

Mrs. Mary Looby, who for the past 12 years has made her home with Mr. and Mrs. E. N. Stahl on Galena avenue left this morning for Baltimore to make her future home. Elizabeth who will stop off at Cumberland to visit her sister Mrs. J. E. Schuck, and at Runnels, Va., to visit another sister, Mrs. Margaret Miller.

Mrs. J. N. Leach of Star Junction was taken suddenly ill Saturday while on her way to visit her mother, Mrs. Magill at Broad Ford and is in a critical condition at her mother's home. Leasure Richer of Pennsville is at Latrobe today on business.

H. O. Markle and a party of friends motored to Perryopolis this morning.

Mr. and Mrs. E. F. Dougherty and daughter Catherine and Frances and son, Master Ted, will leave this evening for a visit with relatives in North Carolina, South Carolina and Georgia.

Edward Bluel, a clerk in the Wright-Metzler Company's store in Uniontown, was in town this morning.

Mrs. P. A. Yahrer and son Francis, of Mendota, were guests of Miss Carrie King at the Bolson summer home yesterday.

Mrs. John H. Clark of Uniontown.

Mrs. H. R. Clark and Mrs. Stephen Travis of New Castle, will be entertained at dinner this evening by Mrs. B. T. Norton at her home at Windymore.

Mrs. A. J. Houston and daughter Helen of Pittsburg have returned home after a visit with Mrs. W. F. Richter of Johnston avenue.

DEATHS.

Miss Margaret Conelly, 21 years old, daughter of Mr. and Mrs. Thomas Conelly of Brownsville, died yesterday at Mount Alto.

Lewis Hardy, 69 years old, died yesterday afternoon at his home on Hardy Hill, Dunbar, following a lingering illness. Funeral from the house tomorrow afternoon at 3 o'clock with interment in Franklin cemetery. Rev. D. E. Minard will officiate. Mr. Hardy was born at Dunbar January 1, 1845, and spent all his life there. He was a son of Isaac and Sarah Wadsworth Hardy, and was a road supervisor for a number of years. His widow, several children and about 20 grandchildren survive.

Mrs. Mary Jordan, 38 years old, died last evening of typhoid fever at her home at South Brownsville.

Funeral of John Sullivan.

Largely attended was the funeral of John Sullivan, Sr., held this morning at 10 o'clock from the Immaculate Conception Church. Requiem high mass was celebrated by Rev. Father John T. Burns. The pallbearers were M. McBride, Thomas Dull, J. J. Toomey, James Connelly, James Kelly and W. Walton. Interment in St. Joseph's cemetery.

Supreme Court Sustains Judge Van Swearingen's Ruling.

The state supreme court yesterday, in session at Philadelphia, decided several Fayette county cases. In the case of the Patton heirs against the Shaw estate, in which Judge Van Swearingen laid down a new rule of law concerning the title to land, and where the land had been sold, the higher court affirmed the decision.

The court also affirmed the compulsory non-suit awarded the West Penn in the suit brought against it by Charles Green who was injured by touching a live wire.

Judge Umbel's decision in the case of the Marine Coal Company against the Pittsburgh, McKeesport & Youghiogheny railroad, was affirmed. His decision was also affirmed in the dispute of William S. Stewart, executor, against other heirs of the estate of John S. Stewart.

FAYETTE APPEALS DECIDED

Supreme Court Sustains Judge Van Swearingen's Ruling.

The state supreme court yesterday, in session at Philadelphia, decided several Fayette county cases. In the case of the Patton heirs against the Shaw estate, in which Judge Van Swearingen laid down a new rule of law concerning the title to land, and where the land had been sold, the higher court affirmed the decision.

The court also affirmed the compulsory non-suit awarded the West Penn in the suit brought against it by Charles Green who was injured by touching a live wire.

Judge Umbel's decision in the case of the Marine Coal Company against the Pittsburgh, McKeesport & Youghiogheny railroad, was affirmed. His decision was also affirmed in the dispute of William S. Stewart, executor, against other heirs of the estate of John S. Stewart.

READY FOR FOURTH

Tetanus Antitoxin Distributed Among Druggists of State.

The 69 tetanus antitoxin stations throughout the commonwealth have received their supplies from the Department of Health and are ready to meet the usual fourth of July demands. The antitoxin will be furnished without cost to the poor and the stations are so located that every part of Pennsylvania is within easy reach of one. It is essential that the tetanus antitoxin be administered within 24 to 48 hours after the wound has been inflicted.

Any physician can secure an immunizing dose of 1,500 units free upon applying to a distributing station, on certifying that it is for the treatment of a person too poor to pay.

The antitoxin supply stations in this section are: R. B. Springer, Uniontown; W. K. Whelan, Greensburg; and J. Yickling, Jr., Somerset.

SHORE EXCURSIONS BEGIN.

Baltimore & Ohio Runs Its First Special to Atlantic City.

The first Baltimore & Ohio excursion to Atlantic City for the summer season was run this morning. A special train of about eight coaches followed regular train No. 8. While travel out of Connellsville was not very heavy, many Pittsburgers took advantage of the excursion.

On account of excursions to Ohio-pole and Killarney Park on Saturday there will be no excursions on Sunday. Six extra coaches will be attached Saturday morning to H. & O. train No. 8 and through service to Killarney will be given.

Will Lay Cornerstone.

Invitations have been received here for the exercises in connection with the laying of the cornerstone of the new hospital building in Brownsville, Thursday, July 9 at 12 o'clock. The committee is composed of G. B. Gray, S. E. Taylor, C. L. Snowden, W. M. Lilly and D. M. Bowman.

Elope to Cumberland.

Otto George Lind of Scottsdale and Ethel E. Gordon of Alverton; Frank Kohrmann and Helen Lorena Brown, both of Uniontown, were married in Cumberland yesterday.

Concert and Dance at Shady.

The Connellsville Military Band will give one of their popular 7-reel and frog concerts at Shady, O., on Monday evening, July 6.—Adv.

If Your Vacation Takes You Near Battle Creek

You are cordially invited to spend a few hours at the famous pure food factories of the

Postum Cereal Co., Ltd.

(Probably the greatest group of pure food factory buildings in the world today.)

Experienced guides are always on duty to show visitors the beautiful offices and art galleries, the spacious grounds and gardens, and the surrounding group of twenty factories wherein are made

Postum, Instant Postum, Grape-Nuts, Post Toasties and Post Tavern Porridge

Every step in the making of the famous foods is shown the visitor—from raw material to finished article.

Guests are encouraged to ask questions, and the most searching inquiry into each and every process concerning pure foods and how they are made, is invited.

The work of the thousand employees and the marvelous and intricate machinery used in manufacture, was explained last year to some 25,000 visitors. This year there'll be more, and you are invited to be one of them. There's considerable to see—and

"There's a Reason."

THURSDAY EVENING, JULY 2, 1914.

THE WATER QUESTION.

In handling the water question, the city council seems determined to put the cart before the horse.

The purchase of the plant will entail long-drawn-out legal proceedings pending which the citizens will be at the mercy of the water company. If there is no water contract, as the city solicitor now holds, the water company may charge its consumers any prices it pleases, subject only to appeal to the Public Service Commission.

The water company has practically begun to impose increased charges by the enforced installation of water meters. The individual citizen may appeal to the commission, it is true, but such an appeal will be burdensome and its imposition unjust. This is a quasi-public question, and it is plainly the duty of the city authorities to assume as much of it as is contained in immediate proceedings before the Public Service Commission to determine what is a fair rate for water service in Connelville. Such proceedings will in nowise interfere with the purchase of the plant by the city in due course of condemnation.

The reasonable and proper course for the council to pursue is to inaugurate simultaneous proceedings to have the water rates passed upon by the Public Service Commission and the plant appraised by proper appraisers, then present the question of purchase to the people for intelligent determination.

If the present proposition is to enter condemnation proceedings to buy the plant without knowing WHAT IT WILL COST, OR WITHOUT CONSULTING THE PEOPLE AS TO THEIR WISHES IN THE MATTER, it will justly be criticised as a high-handed proceeding.

The almost autocratic powers of the city council should make the members chary of assuming more than are necessary and proper to the administration of the city's affairs.

Teddy says Penrose is a menace and the Uniontown New Freedom Standard thinks he's an incubus. Both are right. He is a menace to Roosevelt and an incubus to the Democratic party.

Connellsville is simply distracting this week, and the Perryopolis Centennial beckons.

The Connelville express change promises to be an express change for the better.

THE FIGHT THIS YEAR.

The Bull Moose leaders are trying to get the Colonel to come back to Pennsylvania and continue his attacks on Senator Penrose, and the Senator says he will be ready to answer them. It will not be at all profitable.

If we read the public mind aright, the citizens are tired of the old quarrels. They are right now paying the penalty of being too much interested in the same fight in 1912. They want no more of it. They are for themselves first and the poorest leaders afterwards. They want prosperity more than they want Teddy.

The foot soldiers in the Republican ranks desire above all things peace in the party, and they are going to have it. Ambitious colonels and lieutenant colonels who conceive other notions will know the steam roller as they never knew it before.

The fighting this year is going to be with the Democrats; it's going to be a fight to the finish; and the finish is going to be good for the Republican party and the country.

"We are from Fayette county, but we don't eat Crow," were the words printed on a card passed around at the Bull Moose meeting in Pittsburgh, and the Uniontown Standard observes that they "carried their own comment." They did. The people who circulate these cards don't eat Crow; they eat them; and he says "we are alive, too."

The decision in the rate case seems to be in chancery.

The Attorney General has recommended the appointment of W. H. S. Thompson as judge of the United States District Court at Pittsburgh and there's a lot of angry buzzing in the Democratic camp. It is understood that this appointment has been resting securely in the vest pocket of Chairman Bruce Sterling of Fayette county. Somebody must have picked Bruce's pocket.

The carnival ought to ask for a weather rebate or a rain check.

Carnival week is psychological as to time but meteorologically unpropitious. This is not an extract from the Wilson bill, but it is almost as bad.

In his interpretation of the character of "The Big Stick," T. Woodrow Wilson promises to make T. Roosevelt look like 39c.

The West Side church troubles should be submitted to mediation.

It is a long journey from Pittsburgh to West Virginia, but when the call of distress sounds no distance is too long nor hardship too great for the mine rescuers of the Pittsburgh station.

Perryopolis is first in the field with the celebration of Glory Week.

The failure of the Connelville grocers to agree on closing on the Fourth indicates the utter absence of a Grocers' Trust, so don't ask 'em.

The West Penn will have some dry picnics this summer.

Looking Backward.

News of the Past Condensed from the Files of The Courier.

FRIDAY, JULY 4, 1884.

The coke trade is dull and prospects for improvement are poor. Twenty-five per cent of the ovens controlled by the pool have been blown out to curtail production.

Major James H. Gray is preparing to build a roller skating rink. Zachariah Connell, from his eminence on top of the school building, looks 46 years younger because of a fresh coat of paint.

The Pittsburgh McKeesport & Youghiogheny railroad completes its line into New Haven, and trains are now running between that point and Pittsburgh.

Christ Belsley is named school tax collector but he declines to serve. The school duplicate for 1884 amounts to \$10,461. Treasurer H. P. Snyder submits a bond in the sum of \$8,000.

Edward K. Hyndman, railroad manager and financier, former Superintendent of Pittsburgh & Connelville railroad, dies at his home in Pittsburgh.

An artificial block stone pavement is laid in front of the Yough House. Fore-runner of cement sidewalks in Connelville.

FRIDAY, June 29, 1894.

Detailed report of the coke trade for the week ending Saturday, June 23, shows a total of 27,474 ovens in the region, of which 5,940 are active and 11,551 are idle, with an estimated production of 58,500 tons.

Shipments for the week aggregated 2,371 cars, consigned as follows: To Pittsburgh, 1,331 cars; to points west, 743 cars; to points east, 294. This is a net increase of 123 cars over last week.

The strike is gradually dying away. More than one-third of the ovens in the region are now in blast. The independent operators have resented a boycott. One firm sold 30 cars a day at \$4 a ton to a consumer which was caught by a fuel shortage.

Prices are: Furnace coke, \$1.00; foundry coke, \$1.15; crushed, \$1.40.

Jury in the trial of the twenty-nine men charged with complicity in the killing of Engineer Joseph Padcock I., a strike riot at Davidson, finds the defendants not guilty.

W. D. McGinnis is elected principal of the New Haven public schools, with Miss Ella Berger, Anna McDowell, Flora Malone, and Emily Boyd completing the corps.

The third division of Coxey's army of the Commonwealth under command of Captain Sullivan, passes through town. They numbered 30. Captain Dorsey's division of Fry's army follows two days later. There were only 25 of the latter.

Engineer H. M. Kephart smashes the time record between Pittsburgh and Connelville with 30 cars of stock, making the run in one hour and 40 minutes, and equalling the Fryer's record.

Charles Duggan of New Haven is

building an addition to his hotel. The old frame structure is being replaced with brick.

FRIDAY, JULY 1, 1904.

Detailed report of the coke trade for the week ending Saturday, June 25, shows a total of 28,127 ovens in the region, of which 15,422 are active and 6,705 are idle, with an estimated production of 173,578 tons.

Shipments for the week were 9,219 cars, consigned as follows: To Pittsburgh, 3,310 cars; to points west, 4,800 cars; to points east, 1,109 cars.

The coke trade is on the downward trend after the first half year. Nearly 1,000 ovens have been blown out. Five days is the average working time.

Rev. W. H. Gladden unanimously elected pastor of the Methodist Protestant Church, another year. Edmund D. Miller and Miss Jessie E. Ogilvie married at the bride's home in "Liberty," or Vanderbilt.

Eleven girls and six men take examinations for permanent teachers' certificates.

John Lester Koffer is named principal of the Dunbar township schools.

TO BUILD FURNACE.

Corrigan, McKinney & Co. Will Erect Two Stacks.

Corrigan, McKinney & Co., of Cleveland, announce that two new blast furnaces will be built in conjunction with the steel plant which has been under erection for some time. Originally it appears to have been the intention to use in the new steel plant a part of the product of the company's present furnaces, but it appears now that these furnaces will remain merchant stacks as formerly.

The new furnaces will be of large capacity, 250,000 to 300,000 tons a year combined, and are expected to be completed before the end of next year.

COWS WERE GONE.

Pursuing Patrolman Finds Howlers are Nowhere in Sight.

Patrolman Joe Murphy had a wild goose chase after some tame cows in the vicinity of Gibson avenue this morning. A resident reported to the police by phone that several impolite cows were devastating their premises.

When the policeman arrived there was no sign of the animals, though a milk man admitted that six of his had broken out of his pasture field during the night.

THE GULF OF MEXICO.

By GEORGE FITCH.
Author of "At Good Old Slaves."

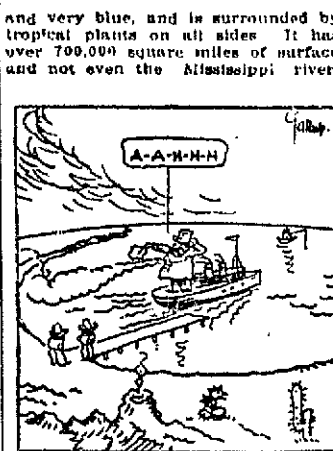

The Gulf of Mexico is a large body of water in the continent of North America, filled with salt water and subject to violent disturbances during the winter season.

This gulf is really an annex of the Atlantic ocean and serves as a hot water heating plant for Great Britain. The water of the Atlantic enters the Gulf from the south and flows out to the northeast in a warm and mellow condition. The current is known as the Gulf Stream and it warms every country which it touches. If the United States should get mad at England and dump up the Straits of Florida, the Gulf Stream would have to parade on snow shoes more than half of the year.

The Gulf of Mexico begins where the United States leaves off, on the south end, and is 1,400 miles long. The entrance to the Atlantic ocean is 500 miles wide from the tip of Florida to the end of Yucatan but the Island of Cuba acts a stopper and divides this entrance into two straits. However, as each of these straits is 100 miles wide, a moderately skillful skipper can get through without scraping the point of his boat.

The countries which border on the Gulf of Mexico are the United States, Mexico and Cuba. Havana, New Orleans, Mobile, Galveston and Vera Cruz are the largest seaports and the Gulf is profusely decorated with steamers at all times of the year. Most of the cotton and bananas which are shipped anywhere in the world pass through the Gulf. In the past 100 years have heaved a sigh of relief as they have braved a steamer bound across this turbulent expanse of water, which is exceedingly safe and peaceful compared with Mexico itself.

The Gulf of Mexico is very warm

And very blue, and is surrounded by tropical plants on all sides. It has over 700,000 square miles of surface, and not even the Mississippi river, which empties into it, can take the salty taste out of it.

Compared with even a second rain ocean, the Gulf of Mexico is very small, but those who live about it do not take liberties with it. It has never engulfed a great steamship like the Titanic, and it has no icebergs or fog but it contains more wind than any other receptacle of its size in the world and when it waded out Galveston in a single night, it did a worse job than the Atlantic has ever been able to accomplish.

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound and according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HILVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

the Church was making, and a copy of the Canton Daily News, from A. Hartford, a former resident of this place, shows that the Canton Sunday school won with an enrollment of 7,716 pupils, defeated Chicago, smashed the world's record and won the coveted title of "The largest Sunday school in the world."

J. Donald Porter spent Sunday at Uniontown visiting his sister, Mrs. Charles A. Tait.

Mrs. H. B. Piper went to Hildreville park on Tuesday, where her two boys, Rex and Robert are in camp.

John Cunningham was a business visitor to Greensburg today.

Miss Marie Hewitt of Cumberland, Md., is the guest of Miss Minnie Blaker of Scottsdale.

CARE OF THE SICK. Hot weather is trying on the sick, and they should be provided with everything that can possibly contribute to their comfort and health. Our line of sick room supplies is complete. Ask your doctor about it. We can supply whatever he may recommend. We can also contribute to the safety and welfare of the sick by compounding his prescriptions. Watson's Pharmacy—Adv.

TO BEDFORD. Mrs. J. M. Newton and daughters, Misses Agatha and Anna, leave today for Bedford, Mass., to visit the former's sister, Mrs. John H. Folsom.

CURR COMING IN. The curb is being laid this week for the improvement of Mulberry street between Broadway and Chestnut street.

BUY AN AUTOMOBILE. J. O. Landenberg, the grocer, in the possession of a large touring car.

COMING OUT. The physicians and ministers of Scottsdale will hold their annual outing at the Presbyterian camp at Roaring Run, in the Indian Creek valley on Tuesday.

TO THE HOSPITAL. Josiah Reynolds is in the Allegheny General Hospital, Pittsburgh, undergoing treatment for an illness which he has suffered from for some time. Mrs. Reynolds accompanied him to the hospital.

MRS. MARIE MELKERSON. Mrs. Marie Melkersen died at the home of her son-in-law, Albert Anson, of near West Overton, on Monday, June 29. The funeral services are this afternoon at 2:30 from the Swedish Church of North Scottsdale, with burial in the Scottsdale cemetery.

NOTES. Friends here have received announcement from Mr. and Mrs. John DeLoe Summers of Seattle of the marriage of their sister, Vivian, to Mr. Chaffant to Jerry Franklin Oley on Monday, June 22. The bride is a daughter of the late Dr. William Chaffant of Pennsylvania, and was a teacher in the public schools of Scottsdale a few years ago. Mrs. DeLoe Summers is her sister, Ethel, also well known here. The pair will be "at home" after August first, at "The Optima."

Mrs. Ella Staley is spending the week at Indian Run, attending the commencement exercises of the Indiana State Normal school, from which her daughter, Helen Marie Staley is graduated this year.

Last week was mentioned the contest for attendance which the Canton, Ohio, Sunday school of the Chris-

Robbers at Oniole. Burglars entered the Baltimore & Ohio station, a business place and three residences at Oniole on Monday night and made off with about \$1 in money, several pairs of shoes and express packages.

The express packages were taken from the station. Next the intruders visited the store of Cyrus Shumway where they secured \$5 in cash, several pairs of shoes and a lot of clothing, valued at about \$25. At the home of D. P. Collins and Dalton Potter, they were scared off before they secured anything, but at E. M. Kennedy's home they found a quantity of eatables and went out into the back yard for a feast.

A. A. Corristan, who had returned from a fishing trip with 45 fine trout, several of which measured 13 1/2 inches, discovered that the same burglars had taken 20 of the biggest ones, which he had cleaned for breakfast and put on a pan on his rear porch.

Don't Poison Baby.

Forty years ago almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. Those drugs will produce sleep, but they also produce DEATH. Many of the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to adults without labeling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your child without your or your physician's knowledge of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of J. C. Ayer & Co., Lowell, Mass.

Genuine Castoria always bears the signature of J. C. Ayer & Co.

HIGHER STANDARDS NOW REQUIRED FOR MINING OFFICIALS

Mine Foremen and Fire
Bosses Must Stand a
Rigid Test.

ADVICE GIVEN BY I. G. ROBY

Eighth District Inspector Addresses
Class Which Took Oral Examination
to Qualify; Smaller Accidents than
Others that Count, He Declares.

The higher standard that is demanded of those who qualify for certificates as mine foremen and fire bosses has resulted in a much smaller percentage passing each year than the year previous, and the examination that have just concluded are no exception. Probably a smaller percentage of applicants were awarded certificates this year than ever before.

Some years ago the test was not particularly difficult, and when minor officials were in demand it was sometimes the custom to observe not too close a scrutiny of the examination papers. However, that condition has passed. Even though there is not the demand this year for mine foremen and fire bosses, because many of the mines are not operating full and a great many men holding certificates are out of employment in an official capacity, the standard is such that only a well-qualified candidate can be certain of a certificate. The test is not only on the written questions, but on the oral quiz as well. In addition to a knowledge of mining matters, all applicants must furnish credentials showing them to be sober and reliable.

In connection with the tests just concluded, Mine Inspector I. G. Roby of the Eighth District, gave some words of advice to the class which took the examination in the district. Among other things he said:

"While a mine explosion of large extent suddenly shocks the country and paralyzes for a while the immediate community, yet our most disastrous mishap of this sort is really insignificant in its casualty when compared with the number of employees killed and maimed continuously throughout the years from falls of top slate and the coal off the walls, this more especially is true where the seam is of great thickness, and in drawing of ribs and pillars.

"Such practical experiences and dangers constantly encountered, have taught us what is wise and best to embody in our mining code and so we note in our bituminous mining laws the provisions made in the endeavor to clearly define the individual duties of each official and individual who is in any way connected and associated with the mining industry—that each may be a means of protection to his brother as well as himself. The mine foreman is made the representative of the law and is responsible for the carrying out of its provisions as a whole.

"The code also provides for penalties and punishments to follow the refusal or neglect to carry out its provisions, or for any violation thereof. This is a measure universally adopted to insure discipline and is the real object and intent of all legal statutes.

"Blasting of coal or shot firing constitutes to be a menace, even though done under many restrictions and with special provisions for protection, but with the past lessons taught and the few we are yet to receive through widespread disasters, we feel that the time is coming when all blasting will be done when the employees are through with the day's work and out of the mine and that unlocked safety lamps as well as all open lights, will be strictly forbidden in any mine wherein firelamp or explosive gas has once been detected.

"The temperament and ability of the management has much to do with the successful organization. The head of affairs as well as his assistant officials should be thoroughly competent, fully experienced, possess the requisite knowledge to give orders and directions and to know when they are correctly carried out; he must have full control and ready co-operation and be so closely in touch with the details that no branch of discipline will pass unnoticed. When the mine foreman discovers himself encumbered with deadwood, even to his assistants, and where patience and leniency avail little and brings no satisfactory results, he can justify himself and his employers by replacing such officials with strong and

forceful men as the real strength of any organization is measured by its weakest member.

EVANGELISTIC MEETINGS

Will Continue For Two Months In
The Main Street Tent.

What promises to be a very successful evangelistic campaign, will begin next Sunday night at the large tent located at Main street and Cottage avenue, which will continue for two months. Meetings will be held every night except Saturday. This series of meetings will be part of an evangelistic movement which includes in its scope every large city in the southeastern part of the United States. Evangelists G. L. West of Connellsville, and F. H. Robbins of Morgantown, will be in charge of the meetings. All of the meetings will begin at 7:45 o'clock.

The list of subjects for the first two weeks of the meetings has been announced as follows:

Sunday, July 5.—Will the Bible Stand?

Monday, July 6.—Daniel 2: The World's History.

Tuesday, July 7.—Second Coming of Christ.

Wednesday, July 8.—Signs of Christ's Second Coming.

Thursday, July 9.—What Must I Do to Be Saved?

Friday, July 10.—God's Gift of His Only Begotten Son.

Sunday, July 12.—The Millennium.

Monday, July 13.—For Whosoever a Man Soweth That Shall He Also Reap.

Tuesday, July 14.—Present Truth.

Wednesday, July 15.—What Think Ye of Christ?

Thursday, July 16.—Heaven: Where Is It? Shall We Know Each Other There?

Friday, July 17.—2300 Days of Daniel 8:14.

Sunday, July 19.—The Earthly and Heavenly Sanctuaries Compared.

LET'S RAIL ORDER

Pennsylvania Requirements Are Great.

The Pennsylvania railroad has announced \$3,000,000 would be spent this year for new steel rails aggregating 137,032 tons. The announcement was a surprise, as it named a total of 13,000 tons higher than had been indicated. Out of the total 1914 requirements orders have been placed for 87,032 tons and bids have been requested from various steel companies for 100,000 tons more. It is understood that orders for practically all the 37,032 tons contracted for have gone to the Cambria Steel Company and the Pennsylvania Steel Company.

The amount of extra heavy rails weighing 120 pounds a yard, to be made for the Pennsylvania this year, is 15,000 tons. These rails comprise the two last orders placed earlier in the year as a result of the Pennsylvania's determination to try thoroughly the heavier rails both with a view of increased safety of railroad operation and heavy trains and high speeds and also to obtain a rail which will be more durable and hence more economical.

Except for the 15,000 tons of extra heavy rails, the Pennsylvania orders this year cover 100 pound standard rails. The cost of standard rails for about a dozen years has been \$28 a ton. In 1912 the Pennsylvania system ordered 133,800 tons of rails, costing more than \$15,000,000. Thus the steel companies this year will sell about \$13,000,000 worth of steel rails less than last year to the Pennsylvania. This year's orders were delayed eight months beyond the usual date.

Licensed to Wed.
Harris Younkkin of Connellsville and Rita Struendeman of South Connellsville, were granted a marriage license in Uniontown yesterday.

Will Build Furnace.
The Pennsylvania steel company has started the construction of a 500-ton blast furnace at Scotland.

THE SOISSON.

A GOOD BILL TODAY.

"The Ballad Trap," a two-act drama with King Bogart & Co. is the principal feature at the Soisson today. "The Sand Hill Lovers" and the comedy, "The Kid," complete the bill. Next Saturday the gifted actress, Florence Turner, will appear in the four-act melodrama, "The Murder Trial," "The Mask of Affliction," a two-act drama of intense interest, will be presented, and a great joker comedy, "The Fatal Letter," Lucille Love, series No. 10 will come Friday as usual.

VISITOR IN REGION GIVES HIS VIEWS OF THE COKE SITUATION

Editor of Daily Iron Trade
Finds Conditions Un-
satisfactory.

SAYS OPERATORS STAND FIRM

Comments Upon Their Attitude in Ad-
justing Output to Demand; Says
They Have No More Idea of Market
Trend Than Steel and Iron Men.

Editor J. F. Froggett of the Cleveland Daily Iron Trade paid a visit to the Connellsville coke region this week and looked the fuel end of the iron business over with a speculative eye and analyzed it as follows:

Operating conditions in the coke works in the Connellsville region appear to be as unsatisfactory as they are in the blast furnace and steel mill districts. Coke producers seem to have no more definite line upon the trend of the market and, therefore, upon what the future has in store than have the iron and steel men. However, coke producers appear to have a definite policy in hand and they are keeping to it strictly. That policy of accommodating output of ovens to demand of furnaces now in several months old and is quite settled. According to statements made to the writer it would seem there is no thought in the mind of any coke plant manager to deviate from that policy in any degree.

The result of the strict enforcement of that policy is to be seen all through the coke regions. Little fuel is lying on open yards, and coke on cars is being sent forward to destination as fast as loaded. There are no long trains of storage ovens on sidings. Too at railroad junction points there are standing strings of some dozens of dead locomotives, somewhat rusted, showing they have not been active for some time.

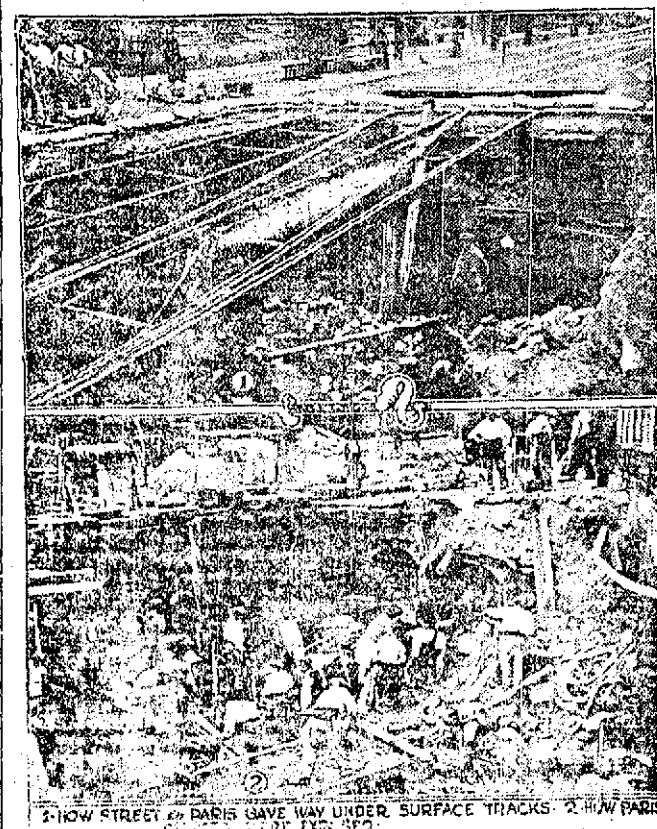

The statement is made upon the best of authority that the Frick company is running at a little better rate than was the case several weeks ago. Frick coal and coke operations which had been closed down in some cases now have resumed, and the working time of several operations has been lengthened. The Railway interests have been operating at about 68 to 70%. It is said, but in general the coke operations of the region as a whole are about 50%. This is demonstrated also by the production figures of the Connellsville Courier, which show that in the week ending June 20 there were 20,824 ovens active and 17,211 ovens inactive. One year ago at the corresponding date there were 32,000 ovens active and 7,102 ovens closed.

The high point of production this year was reached in the week of March 21 with a total of 384,900 tons, whereas in the week of June 20, the date of the last report, output had dropped to 282,575 tons. As showing how closely production is being kept to actual demand as expressed in shipments, it may be pointed out that on June 20, shipments were 249,245 tons, compared with total output of 282,575 tons. The high point in actual shipments reached this year was in the week ending March 7, when 383,342 tons were shipped in 10,525 cars. The 249,245 tons shipped in the week of June 20 required only 7,092 cars for their transportation. The fact that in some weeks total production figures fall below total shipments shows that occasionally yards of coke have been shipped in addition to the week's output. For instance, in the week of June 6, shipments totaled 243,831 tons, while output was given at 243,808 tons.

According to the best information obtainable from coke merchant operators who sell their product in the open market have been the most careful in adjusting output to demand, and hence have cut down their active operations more closely. In the week of June 20, an aggregate of 8,493 merchant ovens was active out of a total of 15,788 ovens; while the furnaces were running 12,031 ovens out of a total of 22,349 ovens. In the week few changes were made in the number of active ovens, the furnace ovens having the identical number decreased only 42. Regarding these conditions, Sales Manager W. L. Byers, of the Producers' Association said today:

"Merchant coke producers are making only enough coke actually to fill requirements, and this seems general throughout the regions. Ovens are fired when orders are in hand. However, this condition of affairs appears

First Pictures Showing Great Damage Done by Big Storm in Paris

to be no different in the coke regions than in blast furnace centers. Yard coke is not apparent. But, coke producers feel reasonably confident a turn in the situation must come sometime, and some even place it within 60, 90 and even 120 days. Of course, they figure, it may take considerably longer than these figures for the regions to pick up and get back to the basis of operating earlier in the year. But some hold to the opinion the coke market has seen the worst phase possible this year. Let's hope so."

COKE DEMAND FAIR

Many Southern Ohio Foundries Have Covered Year's Needs.

Demand for foundry coke continues fair, says the Cincinnati correspondent of the Daily Iron Trade. Dealers estimate that at least 60 per cent of the foundries in that territory have bought for requirements to cover the next year. Contracts expire July 1 but numerous matters have shown no indication of renewing contracts stating that they have enough from last year's purchases to run them for several months.

Quotations there are as follows: Wise county furnace, \$1.90@2.10; Waco county foundry, \$2.25@2.75; Peachbottom furnace, \$1.90@2.05; Peachbottom foundry, \$2.25@2.40; New River foundry, \$2.75@2.80; New River furnace, \$2.20@2.35.

"No, are all the pirates dead?"
"Father, my son. They now run
about checking privileges at the hotels
and restaurants." — Town Topics

MERCHANT FURNACES ADOPT A POLICY OF WATCHFUL WAITING

Though About One-Half
Their Requirements
are Covered.

PROMPT COKE IS MORE ACTIVE

In Consequence of This Fact and the
Intervention of a Holiday Week.
Meanwhile the \$3 Minimum Obtained.
Foundry Coke is Active at \$2.50.

From The Weekly Courier.
PITTSBURG, July 1.—Since the
fairly heavy purchases of second half
furnace coke at \$2.00, reported a week
ago, the coke market has been de-
cidedly quiet. At that time there
were active negotiations for second
half coke by several other consumers,
but the negotiations have been pro-
ceeding very slowly.

A summary indicates that consider-
ably more than one-half the pro-
spective consumption of merchant fur-
nace coke over the next few months
is already under cover. In several in-
stances the coke was purchased long
ago, there having been a few con-
tracts made late last year for the en-
tire year 1914, while early in the year
several contracts were made for sec-
ond half as extensions to old contracts.
A few weeks ago some contracts were
made for second half at under \$2.00,
and as reported a week ago three
contracts were then made for a total
of 27,000 tons monthly at \$2.00.

The major portion of the consumers
who are still uncovered are evidently
committed to a policy of waiting for
while before they make any con-
tracts covering a period of months.
Some of these consumers have un-
delivered coke on first half contracts,
which will run their term a few days
in July, while others have been buying
relatively small quantities of prompt
coke in the past few days, to enable
them to wait until the situation is
clearer for contracting.

Purchases of prompt furnace coke
in the last week have been a total of
over 10,000 tons, generally at \$1.75
or \$1.80. This is the first activity in
prompt coke for several weeks.

Delay in closing contracts for July,
or for the first half of the year, is usually
attributed to a desire on the part of
consumers to see what the effect upon
the market will be of a number of
contracts expiring at this time. Con-
sumers feel that if the market is
active in the first half of the year, it
will have a depressing effect, and in order to avoid
purchases which would have an ele-
vating effect the consumers have un-
derstood to cover to such an extent
that they will not need to come into
the market until about the second week
of July. It is recognized, too, that the
holiday celebration will probably cut
into production considerably, and
may make coke rather scarce, so that
it would be better to wait.

The same line up prevails to some
extent among producers as to second
half contracts. The operators who
were asking \$2.00 as minimum for this
period have not departed from the
quotation, while there are others
sellers who quite slightly less, though
possibly upon coke not the choicest.
Among the \$2.00 operators, however,
there are possibly some who would
accept slightly less than \$2.00 for
July shipment, and it is hardly pos-
sible that a few contracts for three
months might be placed at conces-
sions.

Prompt furnace coke remains quot-
able at \$1.75 to \$1.80. It is rumored
that as low as \$1.70 has been done,
though not on standard coke. For
prompt coke generally admitted as
standard as high as \$1.85 might have
to be paid.

Contracting for foundry coke for
the twelve-month beginning today
has increased, and the major part of
the regular consumption is now under
contract. There have been very few
deviations from \$2.50 in the case of
the choicest brands. One or two op-
erators have quoted \$2.50 for the next
six months and \$2.55 for the next
six months following, but under stress
of competition it is believed they have
done \$2.50 for the whole twelve
months. There have been some con-
tracts closed at prices ranging down
to \$2.35, in the case of long well known
brands, and some indifferent cokes
have gone at still less, chiefly for
prompt shipment. The market as a
whole stands quotable as follows,
according to quality:

Prompt furnace \$1.75 to \$1.80
Contract furnace \$1.80 to \$2.00
Prompt foundry \$2.35 to \$2.50
Contract foundry \$2.35 to \$2.50

The general sentiment in the iron
and steel trade has shown a further
improvement in the past week, and
to an extent this is reflected in the
coke trade, but the more favorable
sentiment in the coke trade is tempo-
rary by the fact that the buying in the
past week has not been as thorough as
would be expected from the better feel-
ing which the iron and steel trade is
exhibiting.

Cherry Valley furnace, Leontina,
Ohio, will be blown out at the end of
this week. Some time ago M. A.
Hanna & Company, who operate the
property, fixed \$13.50, furnace, as the
minimum selling price for malleable
or No. 2 foundry. Other sellers have
dropped to \$13.00, Valley, and while
some sales were made at \$13.00 they
do not seem to have been sufficient
to keep the furnace in operation, and
it is to be blown out rather than cut
the price or pile iron.

The Standard Sanitary Manufactur-
ing Company has purchased 5,000
tons of No. 2 foundry iron from five
or six furnaces in Western Pennsyl-
vania and the Valley, paying \$13.00
at furnace. The market stands un-
changed as follows: Bessemer,
\$14.00; basic, malleable and No. 2
foundry, \$13.00; gray forge, \$12.50;
\$12.75, at Valley furnaces, 90 cents
higher delivered Pittsburgh. One or
two furnaces having a 75-cent freight
rate to Pittsburgh have given up their
advantage over the Valleys and have
quoted \$13.75 delivered Pittsburgh on
foundry iron.

STEEL BOOKINGS INCREASE AND OPERATIONS BETTER

Mill Running at About 65% Capacity.
Finished Prices Firmer.
Half Orders.

NEW YORK, July 1.—The Ameri-
can Metal Market and Daily Iron &
Steel Report will review the steel and
iron situation tomorrow as follows:
We estimate bookings of steel orders
in June, for early shipment at 35%
greater than in May. The heavier
bookings have continued to date, with
no signs of slowing down for July, and
the prospect is that bookings will be
fairly heavy in June, although that is
normally a dull month.

Steel mill operations now average
fully 65% of capacity, making a
better average than either May or
June as a whole. Instead of there
being extensive idleness, closings
at the steel mills, a number of the
mills have scheduled increases in
operation, and few will close. Recent
statements of extensive closings in July
appear to have been guesses based
upon theory rather than the rep-
resentation of actual information drawn
from the proper sources.

Finished steel prices are showing
decided firmness. There has been no
recession in prices for prompt ship-
ment, while higher prices continue to
be demanded on third quarter con-
tracts and as buyers have made
greater efforts in the past week to
place contracts they are more im-
pressed by the mill attitude. There
is a distinct tendency among at least
a few buyers to stock material at
present prompt prices rather than pay
a premium on open contracts.

Bookings of the National Tube
Company in June were 12% in excess
of its average bookings in the first
five months of the year.
It is officially announced that the
Pennsylvania railroad system is in-
quiring for 100,000 tons of rails for
this season's delivery in addition to
27,322 tons already ordered. Follow-
ing the June 15th statement of a de-
crease in idle cars come reports from
various sections of a shortage in box
cars already developing and predic-
tions are common that there will be
a serious car shortage in October.

DISCUSS SLAG CHARGES

Railroad Men and Furnace Operators
are Settling Accounts.

A conference was held in Pittsburgh
Friday of the executive officers of the
railroads operating in mill sections
and executives of industrial concerns
relative to slag disposal with a view
to action that will conform to the ex-
pressed wishes of the Interstate Com-
merce Commission. From the very
beginning of the furnace industry slag
has been accounted waste material
and, as such, has been utilized by fur-
naces and mills as filling for the
ground to the extent it was needed,
the residue being taken by the rail-
roads and hauled away free of charge
for both use as ballast and filling.

In course of time, however, the
waste places about the furnaces have
all been reclaimed, while with the
multiplication and increase in capacity
of the furnaces themselves the pro-
duction of slag has increased greatly
until its disposal has assumed the pro-
portions of a problem.

With all the railroads continued their
practice of gratuitous removal
until the Commerce Commission sug-
gested that the if the carriers are in
such urgent need of increased re-
venue as they claim to be, they might
earn a very tidy sum by charging the
furnace people for hauling away the
slag. A charge of 20 cents a ton was
agreed upon by the railroads, accord-
ingly, and the tariff embodying it filed
with the commission. The furnace
people excepted to its imposition and
protested to the commission against
its enforcement, but that tribunal has
not acted upon the protest, hence the
conference, the result of which will be
in all likelihood, that the railroads will
receive payment for hauling slag
from the furnaces in future, paying,
in their turn, for such of the material
as they may use for their own pur-
poses.

A Bumper Wheat Crop.
This year's wheat crop will be 900
millions of bushels—137 millions more
than ever before. It will make good
times for those directly affected and
throughout the entire country. But
always remember that the furnace has
to actually get your share of the
nation's wealth is to save part of your
earnings. The First National of Con-
necticut is old and safe and strong
and pays 4% compound interest on
savings. One dollar opens an account.

Guard Your Home Against a Fifth of July Sorrow

However unpleasant it may be to face it, here is a fact
gathered by the American Medical Association, an organiza-
tion that has helped mightily in agitating a safe and sane
Fourth;

In spite of regulations and in spite of the fact that Penn-
sylvania is the birthplace not only of the declaration which
enshrines the "pursuit of happiness," but also of the move-
ment for a sane Fourth of July, which has reduced casualties
in every other part of the land,

this State holds the record for Fourth of July injuries

There is no such a thing as a harmless explosive—ALL
are dangerous. That most terrible of all Fourth of July re-
sults—LOCKJAW—usually comes from some small wound or
abrasion caused by a toy pistol or a "harmless" cracker. Going
up the scale, the giant firecracker and the blank cartridge are
responsible for the loss of eyesight, legs, arms, hands, one or
more fingers and other lifetime mutilations.

Every person, young or old, who lights a firecracker
runs a risk of being injured, at least to the extent of a powder
burn which may lead to serious consequences.

The gist of an editorial in the North American, Philadelphia, June
27th, 1914.

Now, isn't it more sensible to say "NO"—and enforce it—
to a child's pleadings for a Fourth of July noise-maker?
Think of a favorite child, pain-racked for a period or mutil-
ated for life; or—terrible thought—blown to pieces by a
child-made bomb or gas-pipe cannon!

Tack this up in the home.

Women's Over-the-Holiday Needfuls That She Can Buy Best and Cheapest Here.

\$3. CORSETS, 1.39.

One lot of American Lady
and La Resist, in moderate
heights and lengths.

ANSWERING THE CALL FOR WHITE STOCKINGS

There is no denying that fine
white stockings are getting scarce
in the stores—mills can hardly sup-
ply the sudden, tremendous de-
mand.

But we have new supplies and
now there are plenty of these:
Listed at 35c (3 pair for \$1), 50c
and \$1.
Mercurized, 35c (3 pair for \$1),
and 50c.
Silk at 50c to \$2.
Hosiery—First floor.

A Fresh Guimpe Does Wonders for a Frock

New guimpes ready today include
Sheer organdie, made with puff-
ings, Valenciennes insertion and a
collar, \$1. to 2.50.

Another style of net with organ-
die front and high collar, \$1. Or
of net with chiffon front and high
collar, 2.50. Plenty of other dainty
kinds from \$1. to \$3.
Neckwear—First floor.

Whatever is Wanted in Men's Wear
